Vande Mataram College Kaushal Centre

Empowering Students Through Skill-Based Excellence

Our institution has established an authorised MKCL Learning Centre and introduced a wide range of KLiC courses as a proactive step toward preparing students for the competitive world. Going beyond conventional academics, these courses are designed to bridge the gap between classroom learning and real-world industry requirements. Through hands-on training, updated curriculum, and practical exposure, students develop essential digital, professional, and technical skills.

More than 50 students have successfully completed these certificate courses and received their respective certificates, reflecting the effectiveness and impact of this initiative. To ensure maximum awareness and participation, the institution also conducts orientation programmes for students and parents, highlighting the importance of skill-based learning, career readiness, and the value of KLiC certification.

This initiative is led under the guidance of **Founder President Dr. Rajkumar Kolhe** and efficiently coordinated by **Centre Coordinator Mr. Santosh Pawar**, ensuring smooth execution and active student participation. Overall, this forward-thinking effort nurtures confidence, competence, and employability, empowering students to become truly job-ready professionals.
